

Your Solutions Based Supply Chain Partner

Working with NAC Group Inc., you will find our 3 tiered approach to supporting your day to day and long term needs to be invaluable. We prove our worth and effectiveness by offering exceptional support from an engineering, manufacturing, and fulfillment standpoint. We do this while maintaining the high level of customer service that you desire, but is lacking in today's world.

Engineering Solutions

- BOM Review for EOL Risk Assessment**
- Second Source Options**
- Design Review for Manufacturability**
- Sustainment for Long Term Product Support**
- Reverse Engineering and Remanufacturing Services**
- Product Drawing and CAD Development**
- Test & Authentication**

Manufacturing Solutions

- Build to Print/Spec**
- Cables & Harnesses**
- PCB Assemblies**
- Metal Fabrication, Machining and Extrusions**
- Hydraulic System Components**
- Custom Hardware**
- Industrial Controls and Control Panels**
- Lighting Assemblies**

Logistics Solutions

- Hybrid Distribution**
- Global Sourcing Specialists**
- Program Sustainment Support and Initiatives**
- Vendor Managed Inventory Programs**
- Long Term Procurement Agreements**
- Project Management and Stocking of Finished Custom Made Assemblies**
- Repair Services**

Engineering and Design Solutions

Target Markets:

A/V and Entertainment
Industrial Automation
Military/Aerospace
Renewable Energy
Energy/Oil & Gas
Automotive/EV

Application Specialties:

Power Conversion and Inversion
Industrial Controls and Panels
LED Lighting and Displays
Thermal Management
Networking and IoT
Hydraulic Systems

Manufacturing Solutions

Components, Assemblies, and Sub-Assemblies

Electronic and Electrical

Standard Capabilities:

Cable Assemblies and Wire Harnesses
Electronic PCBA's and Flex Circuits
Top Level Assemblies / Full Box Builds

Specialty Capabilities:

UL508A Certified Control Panels
LED Lighting Assemblies and Displays
Ruggedized Power Supplies

Mechanical and Hydraulic

Metal Fabrication Capabilities:

Aluminum Extrusions
Machined Components and Enclosures
Sheet Metal Forming
Custom Hardware

Hydraulic System Components:

Standard and Custom Hydraulic Pumps
Custom Hydraulic Piston
Hydraulic Hose Assemblies

Solutions Based Strategy
